Tom C. Garcia  
Facilities Protection System Inc.  
1150 W. Central Avenue, Suite D  
Brea, CA 92821

Dear Mr. Garcia:

**Subject: Contract DTFA02-C-04926 - Halon Fire Protection Replacement Project at Federal Aviation Administration (FAA), Control Wing Basement, Palmdale ARTCC.**

Final acceptance is hereby made of all work under the above name contract. Enclosed are Contractor's Release Form made out for the total amount of the contract \$323,260.00. The successful completion of this project demonstrates Facilities Protection System Inc. had a clear understanding of the work involved and was extremely competent in its ability to perform and execute the requirements of contract. This company has extensive experience working on projects of this size and nature. Facilities Protection System responsible for ensuring any/all of their contract employee's working on the above contract complied with FAA and Palmdale Center safety and security requirements. The FAA evaluation team has determined that Facilities Protection Systems technical and cost associated with this project was in the best interest of the government and provides the Best Value to the FAA.

I would like to take this opportunity to acknowledge and commend the outstanding personal effort put forth by all of Facilities Protection Systems professional staff for a job well done. This project had a very tight deadline, which the FAA was able to meet due to Facilities Protection System outstanding job performance and cooperation with the work effort of FAA Palmdale, Air Route Traffic Control Center staff.

Sincerely,

Etta C. Green  
Contracting Officer, AWP-55
